

Christophe Becquereau B.Sc (hons) Ost.
Registered Osteopath

Christophe came to England from France to study at the British School Of Osteopathy in 1994. He graduated with honors in 1998. Since then, having spent a few years working in various multi-disciplinary Clinics, he has equipped himself with the knowledge and skills to provide hands-on treatment that promotes healing, relieves pain, and improves mobility.

He feels it's a privilege to support others on their journey to optimal health; and treats patients of all ages, from newborns to the elderly, having a deep understanding of the psychological and physiological differences that exist at different stages of life.

In 2010, he decided to set up his own clinic. The Maple Tree Clinic was born.

Having been asked by many clients to treat their animals, in 1998, he embarked on further training to include animal osteopathy using a holistic approach to treating animals that focuses on restoring balance and promoting natural healing.

If you have any questions about osteopathy (human or animal) and want to learn more, feel free to reach out. I am here to share my expertise and help you on your path to wellness.
